

INFORMATION SECURITY POLICY

SMLI has established an information security policy which supports the strategic aims of the business and is committed to secure confidentiality, integrity, and availability of the information. We shall therefore deploy optimum resources to implement the controls and continuously strive to ensure:

- Information is available to authorized users when needed.
- Information and assets are protected against unauthorized access, use and modification.
- Applicable Legal, Regulatory and Contractual requirements are met.
- Awareness amongst employees and business associates for ISMS policy and preserving integrity & confidentiality of the information.
- Performance of ISMS is measured and continually improved.
